RRTS-29669 Added the ISA to Disabled Veteran License Plates (SB 792)

As a result of SB 792, anyone parking in a disabled parking space must have a license plate or disabled parking placard that features the International Symbol of Access (ISA).

Previously: Disabled Veteran license plates do not feature the ISA unless the license plate is personalized, and the \$40 personalization fee is paid.

Change: Disabled Veteran license plates can feature the ISA and the personalization fee to obtain the ISA on a Disabled Veteran license plate is no longer required.

Here are two examples of the Disabled Veteran license plate with the ISA:

Beginning on January 1, 2022, motorists with Disabled Veteran license plates wanting to use disabled parking spaces must apply for a disabled parking placard and/or a new Disabled Veteran license plate with ISA if the veteran meets the eligibility requirements. A newly certified Disabled Veteran with a permanent disability status, can request a maximum of two Disabled Veteran ISA license plates and/or parking placards.

Additionally, on January 1, 2022, applicants for a disabled parking placard must get the signature of a medically licensed professional on the application.

Changes to the **Disabled Person Information** screen (MRG002):

- Added the **Medically Certified** radio button, which must be selected if the customer meets the eligibility requirements to process and issue disabled parking placards.
- Added the **Existing Disabled Veteran ISA Plate** check box, which tracks existing Disabled Veterans who opt for the new DV ISA plate and must be checked for the number of placards to be issued.

To assist in the manufacturing process for the newly designed Disabled Veteran (DV) ISA plates, an exclamation point ("!") is used in the manufactured plate number as a placeholder for the Stacked DV text characters. As a result, you will see **!** in the **Mfg Plate No** field and **DV** in the **Plate No** field on the **Special Plate Information SPL002** screen.

Defects Addressed in RTS POS 11.0

ID	Description
RRTS-21215	<p>Previously: When a customer requested to have the Rights of Survivorship (ROS) names removed from a title and to add a beneficiary, the county processed the request by unselecting the Survivorship Rights check box on the Title Additional Info (TTL008) screen. The receipt reflected the beneficiary addition and eliminated any ROS names, but the Texas Certificate of Title still printed with the ROS names.</p> <p>Change: RTS POS no longer retains or prints on the Texas Certificate of Title any ROS names after the Survivorship Rights check box has been unselected.</p>
RRTS-30021	<p>Previously: RTS POS pulled the incorrect Virtual Inventory pattern for 52 motorcycle Disabled Veteran (DV) plates.</p> <p>Change: RTS POS now pulls the correct Virtual Inventory pattern for the 52 motorcycle DV plates.</p>
