1. Converter Licenses

A person or business entity must have a converter license to assemble, install or affix a body, cab or special equipment to a chassis prior to the retail sale of a vehicle, or to substantially add to, subtract from or modify a previously assembled or manufactured motor vehicle unless the resulting vehicle is a motor home, ambulance or fire-fighting vehicle.

Converter license holder cannot sell converted new motor vehicles directly to the retail public, including cities and municipalities. Only a franchised dealer for the underlying chassis of the converted vehicle may sell the vehicle to retail customers.

A converter may also hold a manufacturer license or a GDN License, but not both.

A converter may also hold a manufacturer license or a franchise dealer license, but not both.

The converter is not required to purchase the motor vehicle it will convert from a Texas franchised dealer. However, once the conversion is complete, the vehicle can only be sold to the end-user by a franchised and licensed Texas motor vehicle dealer for the underlying chassis line-make. The franchised dealer must invoice the end-user for the entire purchase price of the vehicle, including the conversion package, obtain payment for the entire purchase price, and perform the titling work on the complete vehicle. How the converter is paid for the conversion package and conversion work is between the converter and the franchised dealer.

Substantial modifications performed on vehicles that have already been the subject of a retail sale are considered after-market conversions and are not subject to regulation by Texas Department of Motor Vehicles.

If a person makes substantial modifications to a new motor vehicle and the resulting product is an ambulance, fire-fighting vehicle, or motorhome, as those terms are defined in Chapter 2301 of the Texas Occupations Code, then the person must obtain a manufacturer license, not a converter license. However, if even one of the conversions produced does not meet the exact definition of ambulance, fire-fighting vehicle, or motorhome, then a converter license, as well as a manufacturer license, is required.

Converters are not required to be physically located in Texas. Even if the converter is located in another state, as long as new motor vehicles they convert are sold in Texas, the converter must have a converter license issued by Texas Department of Motor Vehicles.

1.1 License Term and Fees

Converter licenses are generally issued for terms of two years.

The fee for a converter license is \$750.

You can use a credit card or electronic check (eCheck) to pay your fees in eLICENSING. In addition to the application fees, different convenience processing fees are charged when paying by credit or debit card or when paying by electronic check (eCheck) transactions. These fees are based on the amount of purchase and are displayed on the *Payment* page in eLICENSING.

1.2 Basic Converter License Information

1.2.1 Converter License Plates

Metal Converter License Plates may be used only by the converter or the converter's employees on unregistered vehicles to:

- Demonstrate the vehicle, or cause the vehicle to be demonstrated, to a prospective buyer who is a franchised motor vehicle dealer or an employee of a franchised motor vehicle dealer.
- Convey the vehicle or cause the vehicle to be conveyed from one of the converter's places of business in this state:
 - a. To another of the converter's places of business in this state.
 - b. From the converter's place of business to a place where the vehicle is to be assembled, repaired, reconditioned, modified or serviced.
 - c. From the state line or a location in this state where the vehicle is unloaded to the converter's place of business.
 - d. From the converter's place of business to a place of business of a franchised motor vehicle dealer.
 - e. To road test the vehicle.

Converter Plates may be displayed only on the type of vehicle that the converter is engaged in the business of assembling or modifying. Converter's Plates are attached to the rear license plate holder of vehicles. These plates expire on the same day as the converter's license.

When an unregistered new motor vehicle is sold to a converter, the selling dealer must remove the dealer's temporary tag. The selling dealer may attach a buyer's temporary

tag to that vehicle or the purchasing converter may display a converter's temporary tag that vehicle.

A converter must maintain a record of each Converter Plate issued to that converter that contains:

- Assigned metal plate number
- Year and make of the vehicle to which the metal plate is affixed
- Vehicle identification number (VIN)
- Name of the person in control of the vehicle

The converter business record must be available at the converter's location during normal working hours for review by a representative of TxDMV. Converter metal plates that cannot be accounted for will be voided in the dealer's record and reported as missing to TxDMV within three days of the date that the discovery is made. After a plate is reported as missing it is no longer valid.

A converter may issue converter temporary tags only. Dealers and converters are required by law to have Internet access at their place of business to connect to the temporary tag database.

1.2.2 Converter License Numbers

In eLICENSING, converter license numbers are numeric strings without any letter designations.

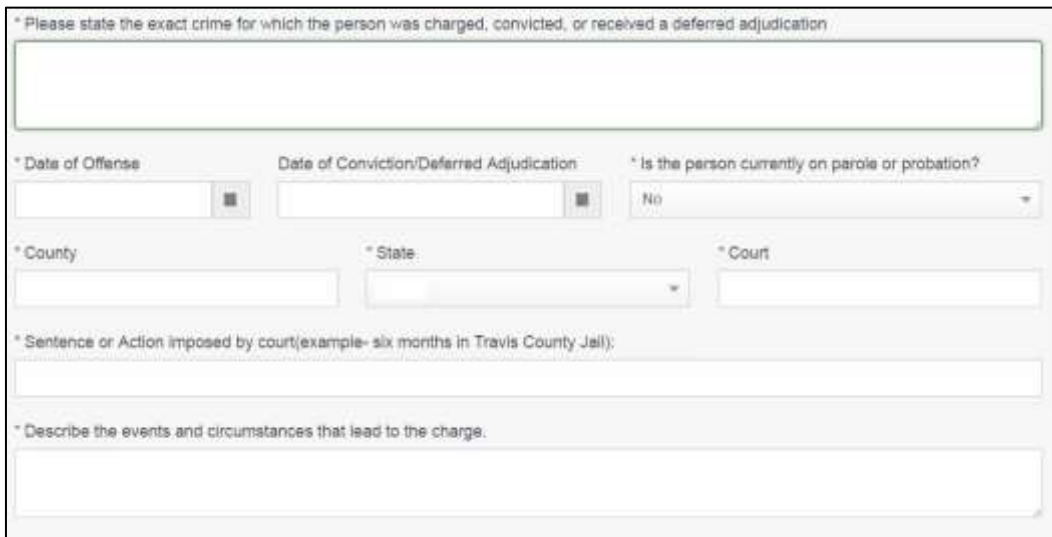

1.3 Gathering Appropriate Information for the Converter License Application

You must have the following information available to complete your lessor license applications:

- The filing number with the Texas Secretary of State when the business entity registered (SOS number), if located in Texas.
- The employer identification number (EIN) of the business or the owner's social security number
- The license numbers the individuals or business entity may possess or have possessed in the past
- Files containing scanned copies of official documents, including the:

8. Renewing Licenses

You should receive a renewal notice in your email in advance of the expiration date of your license. The application to renew your license follows a process similar to the original application.

Instead of renewing, the system may prompt you that you should file a new application if you have changed locations or added additional locations with the same city as the main physical location or changed business structure or ownership since the last application or renewal.

8.1 Renewal Fees

The fee to renew a license on time is \$750.

If the renewal is late, the fee is \$750 plus \$375 if renewed after the first 30 days and \$375 more if renewed after 60 days. In addition there will be a \$100 fee for each Representative if renewed after the first 30 days and \$200 if renewed after 60 days.

The Plate/Sticker renewal fee is \$40.

If your license has been expired for more than a year, you are required to file an application for a new license.

8.2 Gathering Information

To complete this application, you will need access to:

- Facts of the criminal history of anyone associated with the dealership (officer, partner, trustee, or other representative capacity) that has ever been arrested, been convicted, received deferred adjudication, or been court martialled, or has any of these actions currently pending, to fill out certain information for each offense.
- Files containing the following information scanned in:
 - Assumed Name Certificates.
 - Certificate of Incorporation, Registration, or Formation filed with the Texas Secretary of State.
 - Driver licenses (or passport, official identification cards, and so on) for new owners or management staff.

- Court papers that back up the adjudication, dismissal, or decision made in each criminal matter (if applicable).
